APOSTILLES

Apostille is a French word, meaning "certification". An Apostille is the name for a specialized certification, issued by the U.S. Secretary of State. The apostle is attached to your original document to verify its authenticity. In 1961 various countries entered into the Hague Convention. If the country of destination of the Apostille does not participate in the Hague Convention, documents being sent to that country can be "authenticated" or "certified".

Most people have limited knowledge about the Apostille process. Often, the first time people hear the word "Apostille" is when they are told they need one. People who have taken the route of doing it themselves the first time are almost always happy to have an Apostille specialist do the next one! They have, in many instances, wasted a lot of time and money in a process that takes longer than anticipated.

SPEED & ACCURACY

While we do not sacrifice quality, in many instances, we can provide a 48-hour turnaround for Apostille documents in Pennsylvania.

APOSTILLE AGENTS

Our Apostille agents are carefully vetted and experienced, and will handle your transaction with professionalism. We will strive to make sure your clients' expectations are exceeded. However, we do rely on the various departments we send the document to and at times we encounter vacations or other situations that may hold up the process. It is for that reason that we suggest you not buy tickets or make reservations until the transaction process is completed.

WHAT WE NEED FROM YOU

- 1) The country you are sending your information to.
- 2) A list of documents which require an Apostille certification
- 3) Your name, address, and best contact telephone number
- 4) Your time frame – We respectfully suggest you do not purchase tickets or make travel reservations until your transaction is completed.
